

Sample PDF Document for Testing

Introduction

This is a sample PDF document created for testing the PDF parser functionality. It contains multiple pages with various types of content including text, tables, and different formatting styles. The parser should be able to extract all this information correctly.

Sample Table

Product	Quantity	Price	Total
Widget A	10	\$5.00	\$50.00
Widget B	5	\$12.00	\$60.00
Widget C	8	\$8.50	\$68.00
Total			\$178.00

Page 2: Additional Information

This is the second page of the document. Multi-page documents are common in real-world scenarios, and the parser needs to handle them properly. Each page should be processed sequentially, and the text should be extracted while maintaining the logical structure. Lorem ipsum dolor sit amet, consectetur adipiscing elit.
